ENVIRONMENTAL DECLARATION ISO 17889-1

Fincibec S.p.A. declares, under its sole responsibility, that the floor and wall tiles it produces comply with the requirements of the environmental standard **ISO 17889-1**. This standard establishes an international sustainability benchmark for ceramic products, objectively assessing the **environmental, economic, and social** impact of tiles throughout their entire life cycle—from raw materials to final disposal—including parameters related to worker health and safety.

The standard includes **thirty-eight mandatory compliance parameters**, each contributing to a specific score assigned to the product and compared with reference values. Only ceramic tiles that achieve a minimum score of **117.5** can be considered compliant with ISO 17889-1.

The final score obtained by **Fincibec S.p.A.** is **125 out of 130**.

This declaration constitutes a self-certification based exclusively on an internal analysis and self-assessment of the requirements set out in the ISO 17889-1 standard.
